

# Slider N 8

★★

Use eight 75 mm squares  
or larger  
Finished model ratio 1.5

**M**ono or duo paper works well for this model. Assembly steps 3 and 4 show two different ways that the units can be joined: both slide well. You may want to use one of the units as a template for making thirds. You can use the template as the last module.

## Module ★★

- 1** Pleat into thirds and unfold. Mountain fold the left third.
- 2** Bisect the lower left right angle and unfold. Fold the right flap over.
- 3** Swivel the paper upwards and squash the flap.
- 4** Unit complete.

## Assembly ★★

- 1** Interleave the two units.
- 2** Only fold the front flap. Make a slightly loose fold so that the units will slide.
- 3** Swivel the paper upwards and squash the flap.
- 4** The flaps can be pulled out to show a different pattern.
